CowParade USA COLLECTION Medium Size Figurines

Current to March 2015

The CowParade USA Collection

The CowParade USA collection of medium-size figurines, launched in 2000, is sold primarily in the United States of America. Each figurine is an authentic replica of a life-size cow created for a CowParade event.

CowParade has now been in over 70 cities worldwide since 1999 and our collection now includes cows from nearly every event. Many of the original cows have sold at auction for \$10,000 or more.

Key & More Information about Checklist

Item Number. Each Cow has an item number. This number is on the box and hangtag that come with each cow. The number also is imprinted on many cows.

Alt. EU Number. Many of the cows are also sold in Europe and elsewhere and may have alternate numbers on their boxes. The Alternate Item numbers are listed on this checklist.

Type. Each cow is either primarily resin or ceramic.

Introduction Date. The Intro Date is the approximate date that a cow was introduced to retailers and collectors.

Status. Each cow will be either current, retired or suspended.

Current cows are ones that are currently sold in retailers throughout the USA.

Retired cows have been discontinued. You may still find these cows on www.shopcowparade.com and other retailers, until supplies run out.

Suspended cows are not being manufactured and distributed at this time, but may be revived in the future.

Available on ShopCowparade.com. Each cow that is available on ShopCowparade.com is indicated on this list.

Please email us at service@cowparade.com if you have any questions about our collection.
